EG&G Ecological Monitoring Program - Program Plan

George H. Setlock, Director  
Environmental Management  
EG&G Rocky Flats, Inc.

We have reviewed EG&G's Final RFP Ecological Monitoring Program - Program Plan dated January 20, 1993. You have our approval to implement the plan.

This is the best ecological planning document we have seen to date from EG&G. In particular, we wish to congratulate you and your staff on the proper use of the data quality objective process.

We believe that the implementation of this plan will enhance the OU-specific ecological risk assessments conducted under CERCLA/RCRA, provide additional data for possible defense of a natural resource damage claim and provide the framework for performance monitoring of biological systems under CERCLA.
